FINANCE AND TRADE.

OFFICE OF THE DAILY APPEAL, MEMPHIS, MAY 28, 1869.

FINANCE.—The demand for City Bonds is, we think, improving. We hear frequent inquiry for them on ordinary notes, but know of none for sale except at figures which buyers will not pay. There is no doubt about the payment of the July interest. Several of our banks have proposed to advance the money necessary upon collaterals in the shape of new bonds.

Current is easy and our banks find no difficulty in finding ready money for the payment of their funds. No. 1 paper is taken at 9 to 12 per cent.

We can learn of no variation in exchange. The supply is more than equal to the demand.

City Scrip is firm and buyers are compelled to pay whatever is asked. The offerings at the counter are very light.

County and Police Scrip are dull and nominal.

It is reported that A. T. Stewart, the late Secretary of the Treasury, is opposed to the head-quarters policy of the present Secretary, and will head the protest of the gold gamblers against this. This, if true, shows very clearly that the financial views of neither could have been consulted prior to their nomination; probably because the President had no confidence in either way which he desired to have inaugurated.

The Attorney-General, at the request of the Comptroller of Currency, has given an opinion that national banking associations cannot legally be converted into State banks, and thus save themselves the obligations under the national bank act.

A question comes up in the case of the National Farmers' and Mechanics' Bank, of Albany, N. Y., which claims to have been converted into a national banking association under an act of the New York Legislature, adopted April 20th, 1867. The Attorney-General says: I am of the opinion that it is not within the power of the Legislature of New York to alter, modify, add to, or diminish the powers, duties or liabilities created or confirmed upon a banking association established under an act of Congress.

The affairs of the Atlantic National Bank of Brooklyn are under examination by Bank Examiner Collier, and the business of the bank is being continued as usual. Mr. Collier already expresses his belief that the bank is financially sound and safe. The deficiency which exists depends on the ultimate value of the securities resorted to by Mr. Bushmore for the loans made, which consist in part of bonds and stock of the Newark and Patterson Railroad, to be assigned to the Erie company at \$50,000 per annum, and all the title deeds to real estate to the amount of \$75,000, etc. It is probable that the capital of the bank will be reduced one-half, say a quarter of a million, instead of a half million. The idea of changing it to a State bank is abandoned.
